

WELCOME TO THIS OPEN HOUSE FOR THE PULLMAN COMPREHENSIVE PLAN REVISION!

The city is currently updating its Comprehensive Plan (adopted in 1999, with amendments approved in 2013). As part of this update activity over the last couple of years, the city has prepared a draft report on existing conditions and future forecasts for the community, and worked with local citizens to develop a set of preliminary goals and policies designed to guide future development. The next step in the process is the creation of a land use plan to show how and where the city will accommodate future growth. Several different scenarios in this regard are being presented at the open house for your review and comment.

The city would appreciate any feedback you wish to provide. You may use this form to offer input, or you may communicate with the planning department using the contact information on the reverse side of this sheet. Thank you for your participation!
